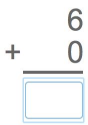
Fact Fluency Tips:

First time on, students take a placement test. Addition is the first fact to be tested and mastered, followed by subtraction, followed by multiplication and then division.



- Student will have six seconds.
- If the wrong answer is entered, student has six seconds to change it.
- If the right answer is entered, a new problem appears.
- The five minute fact test is broken into 5 one minute sprints.
- At the end of each sprint, student is shown progress.

Students can check their progress at any time by clicking on the progress icon.

They will see their progress in the form of a 121 fact grid.
Green = mastered. Yellow = Tricky Fact.
